

## **Date and Time:**

12 September 2014 | 3:45 pm

## **Attendees:**

Rohith Reddy

Mrinal Dhar

Karthik Reddy

Bhavesh Goyal

Mr. Naresh (Akshar Speech Technologies)

## **Agenda:**

To know about further requirements and UI.

## **Minutes:**

### **Discussion:**

There was a discussion about the UI design. We also discussed about some backend work.

### **Action Points:**

- Appearance and design of the home page.
- After the home page is swiped we must be able to see the list of stores wherein the user can buy his product.
- On clicking on any of the store icon we should be able to search the products in that particular store.
- In order to do this the search bar must be implemented.
- We were asked to improve the basic UI and implement the above points, before the next meeting.

## **Date of the next meeting:**

17 September 2014 | 11:45 pm
