Minutes of Meeting
17th August 2014
Mrinal Dhar

- ## <u>Date and time</u>

17th August 2014 | 4:00PM

- ## <u>Attendees</u>

- ❖ Mrinal Dhar
- ❖ Bhavesh Goyal
- ❖ Rohith Reddy
- ❖ Karthik Reddy
- ❖ Mr. Naresh (Akshar Speech Technologies)

- ## <u>Agenda</u>

- ❖ First meeting with client.
- ❖ Getting to know the project requirements and client's expectations.

- ## <u>Minutes</u>

❖ *Discussion*

The project is supposed to be a voice-based app that lets the user to buy groceries from various online stores.

The user can say "two bottles of juice" and the app should display the products appropriately using APIs of various online stores.

Currently, the client's voice recognition engine is not ready and hence we cannot use it in the project yet. We will have to develop it based on text input from the user. Focus was laid on the User Interface of the app and how it needs to be elegant and easy to use.

❖ *Action Points*

The client asked us to prepare mock-ups of what we thought would be appropriate app screens and their layouts.

There was a change in the T.A. who we were alloted to. We were to contact Ms. Khyati Chandu, our new T.A. for this project.

- **<u>Date of the next meeting</u>**
  - ❖ 27th August 2014 | 2:30PM
